SUMMARY

As a Data Center Associate, leading teams in executing tasks directly assigned by managers and supervisors, while collaborating closely with leads to ensure smooth operations. I excel in prioritizing tasks to ensure critical operations are carried out efficiently and precisely within the high-stakes environment of a data center.

I thrive in collaborative and structured settings, bringing adaptability and strong problem-solving skills to manage dynamic challenges. My dedication to continuous improvement drives me to optimize workflows, enhance productivity, and maintain operational excellence.

Safety and compliance are central to my role. I am committed to fostering a secure and compliant work environment, adhering to established protocols, and promoting a culture of safety. With a focus on operational precision and teamwork, I am eager to contribute to roles that value leadership, analytical thinking, and a commitment to innovation and efficiency.

Thierry Lindor

EXPERIENCE

January 2025 - Current

Volunteer | Blood Donor Ambassador American Red Cross | Omaha, NE

- Greet donors, explain the donation process as necessary and assist with initial intake and hand offs through the blood donation process
- Manage donor flow and direct donors to tablet registration
- Ensure blood donors have relevant information and that questions are answered appropriately while creating a favorable impression of the blood donation process.
- Provide customer service to donors in the Hospitality Area by ensuring that each donor is recognized for his/her contribution
- Work with collections team supervisor or charge staff to match donor's blood type with the best product for maximum impact

January 2024 - Current

Data Center Logistic GXO Logistic | Omaha, NE

Server Operation assistant| Kitting Department| Material Handling

Executed logistical tasks to ensure efficient data center operations and hardware deployment readiness

- Physically moved equipment within the data center using Turtle Tugger Movex and other material handling tools
- Handled inbound and outbound operations including picking, packing, staging, and processing deliveries
- Conducted inventory counts and cycle checks to maintain accuracy in stock levels
- Organized and stored equipment and kits in designated areas for quick and safe accessibility
- Utilized inventory management systems to track, update, and reconcile part movements and kit status
- Collaborated with cross-functional teams to troubleshoot and resolve operational and fulfillment challenges

Safety and Compliance

- Prioritized tasks to meet tight deadlines while maintaining high safety standards.
- Adhere to all system protocols, particularly when handling heavy or sensitive equipment.
- Ensure compliance with company policies and industry regulations.
